

CUSTOMIZER TERMS AND CONDITIONS

Welcome to the Boombotix Built-a-Bot Customizer!

Before getting started with uploading your own custom image, please take a moment to familiarize yourself with the following basic guidelines:

COPYRIGHT and TRADEMARK

Please do not upload any image that may violate or infringe on the trademark, copyright or other intellectual property of another party. You may upload any original work that you have created yourself, but do not upload the logos of professional sports teams, superhero symbols, brand logos (that you don't own yourself), images of celebrities, etc. Please use common sense here - if you don't own it or didn't create it, please don't use it.

HARMFUL or DEFAMATORY CONTENT

Please do not upload any image that is harmful, threatening, abusive, hateful, or that otherwise violates another's rights, including but not limited to right to privacy.

PORNOGRAPHY

Please do not upload pornographic images, artwork or photographs of any kind.

CRIMINAL ACTIVITY

Please do not upload images that would constitute or encourage illegal activity or would violate any local, state, national or international law.

Note that should Boombotix, in its sole judgement, determine that the image you uploaded violates any of these guidelines, we will cancel your order. If you have any questions, please drop us a line at <mailto:support@boombotix.com>.
